New Generation Sewage Treatment

I am G V Krishna When we came to **Southern Gem Hospital**, DR. SWETA AGARWAL and DR. NITESH KUMAR AGARWAL explained us in detail about the actual condition of my wife who was carrying. They were very cooperative in answering all our queries and taking away the fear we felt. It was our good fortune to get awareness and proper information about pregnancy and delivery at right time, at right place and in right hands.

Couple of remarkable things we noticed at Southern Gem Hospital is fearless environment and the treatment which is done in very traditional and family atmosphere. We were very happy with the care and concern shown by the entire medical team in Southern Gem Hospital.

We would thank DR. SWETA AGARWAL and DR. NITESH KUMAR AGARWAL lifelong for helping us get a new joy in our lives in form of lovely son who was born on 14th, September 2014

We have shared our joy and experience in Southern Gem Hospital with hundreds, probably thousands of people and we will keep doing it.

All the best to one and all in Southern Gem Hospital

GV Krishna
